Destwin Quick Reference
Console Version 2.0
Expiring Contracts
26-APR-11

This Quick Reference describes the Advanced Site Parameters that control the automatic e-mail that can be sent to customers who have used up some specified percentage of their contracted gallons.

Name	Description
When customer has used __% of purchased fuel, allow them to create new contract	Specified percentage that establishes the threshold that triggers the e-mail notification, e.g. if set to 75%, the e-mail will be sent when the customer has received 75% of their contracted gallons.
From e-mail address for customer notification e-mail when gallons threshold reached	Use this to set the From e-mail address that will appear on the e-mail to the customer, e.g. customerservice@fueldealer.com.
Internal e-mail address to receive copy of e-mail notification to customer when gallons threshold reached	This parameter may be used to specify an e-mail address or addresses that will be blind copied on the e-mail to the customer.
Message body for email sent when contract crosses eligibility threshold for gallons/date	This parameter controls the content of the e-mail that is sent to the customer.

When these have been set as desired, contact Destwin to enable the function.
